Von Becker tag along; 1.3.83

Categories

- 1) EE budget
- 2) CTR : $\text{LGT not in this; all of the other 5 are in this:}$
- 3) LG, Inc : budget to be sent by Becker
 - a) Contingent Div Capita $\frac{1}{6} (625k)$
112k for LG
 - b) LRO market share $(4.5^{\circ} '84$
 $2.87 '83)$
 $3.2 \text{ million.}; LG \text{ share at}$
 $4.5\% = 144k$

$$\dots, LG \text{ share in aggregate} = 256k$$

Hildegard von Becker for some arrangement.

"Contract Dies" was the pre-ancestor of "Tobacco Dies" which now is Case Support Division. \therefore , it is better than 100% if going alone.

Q to literature

- 4) Account No. 4 : from them Jacobs fin, but in fact, the EE, Inc.
 - ↳ LG put an 80k cap on this in '83.
 - ↳ Becker:
 - a) Hand budget this
 - b) Should have done controls -
 - c) Hand define what is wanted.

Dacker would : (i) augment long center
 (ii) de-augment other areas
 with R&T, etc

→ ht projects its share in collecting/curating
 its own interests - in fees to W&S

Q: how much paid into Account no. 4 "in
 '83? eg"

3) "CTR social projects" : things that ht
 has never been involved in. These are
 "scientific" or "pseudo-scientific"
 projects that CTR has been
 unwilling to do.

→ Dacker questions need for any of this.

6) SAT does a certain amount of work for
TI. Dacker does not know how they
 are paid; eg: SAT may be selling
TI directly.

7) C&B exports TI - & possibly sells for
 sub.

8) SAT also does a certain amount of "industry-
 wide co-administration." Position of W&S: ht
 will participate directly the affairs of W&S.

(8)

8) ~~Score~~ no. 5 : What is this ?
→ { Decker does not know -
→ { You does not know

9) American not a "member" of TI - but
American does participate.
? What does American pay?

American attends all comm/conserv meetings,
" does not attend Exec/cons. meetings
